ISO 9001:2015 Implementation Course

Course Description:
This course provides an intensive, hands-on kick-start to implementing a quality management system based on ISO 9001:2015. Participants will draft significant elements of their QMS during course activities.

Course Objectives:
- Understand required elements of the QMS
- Identify gaps between existing QMS and requirements
- Plan QMS implementation activities
- Draft key elements of the QMS
